## TWITTER

**1** Log in to your Twitter account

**2** On the left side bar navigate and click on the last tab called 'More' – It can be found right under your profile tab

**3** Once you have clicked on the 'More' tab, click on the tab that says 'Settings and privacy' – This will now take you to your profile settings page

**4** Once you are in the settings page, click on 'Privacy and safety' – here you will be able to change and amend your privacy settings for your Twitter account
